

Harvey Hinklemeyers Peru

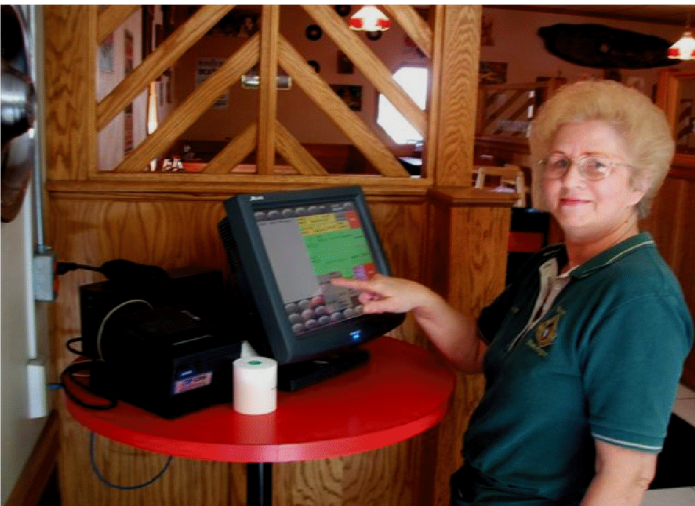

Harvey Hinklemeyers was established in January 1980 inside a renowned Irish pub in Peru Indiana. Due to the success of the establishment, Harveys was obligated to relocate to Broadway street before increasing success required them to relocate once more in the “Circus City Capitol of the World.” To help accommodate to all of the success that Harvey’s has been having with its franchise, Josie Butts decided she needed a POS system that would complement the success of here business. She installed a Maitre’D POS system running on Posiflex touch-screen terminals with CRS support/services.

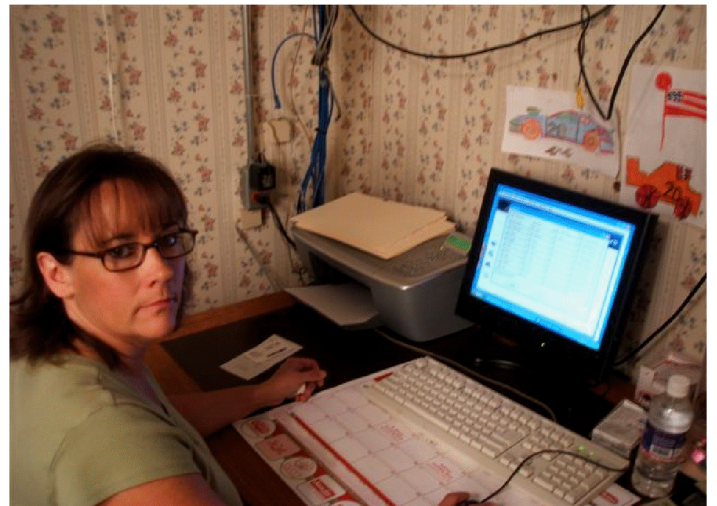

“It is difficult to think that CRS is located all the way in Indy with the response time that you have provided to us.”

“The payroll process used to be so tedious but now with this system it has been so easy; you literally click a button and you’re done.”

“Some of our older employees seemed to be a little scared of the system at first but, now after working with it they all are absolutely fine with the system because of how much easier it has been for them to operate.”

“The capability and how easy it is to split or combine checks has been a big advantage for us and our customers dining experience. The speed of the system is something that we have really noticed with our average table turnover being at 37 minutes.”

“I WOULD BE DELIGHTED TO RECOMMEND CRS/MAITRE’D TO ANY RESTAURANT OWNER OR MANAGER LOOKING TO REAP THE SAME BENEFITS THAT WE HAVE EXPERIENCED WITH THIS SYSTEM.”
