Dear Ken:

I would like to thank you for taking over the leadership of CRS just over a year ago. We began our relationship in 1999 with a high level of satisfaction; unfortunately this had waned over recent years. As you know we had never purchased a hardware maintenance agreement for our Panasonic P.O.S. equipment until 2005. I am pleased to report that we have been extremely satisfied with the "new" CRS and the resulting maintenance agreement.

Obviously, the new rates you introduced for a total maintenance agreement made this service more affordable than paying for individual service calls. Additionally, our use of the monthly billing provision has enabled us to better manage our cash flow. Our manager's no longer have to be concerned about the financial impact of placing a service call to repair any component of their P.O.S. equipment.

While it is impossible to put an exact number on the improved value of this relationship, I know it has been worth the investment. The "peace of mind" that we have and the ease with which repairs are made, adds significant value to our company. At this juncture we are please with the "new" CRS and the resulting relationship with our company.

Sincerely,

A handwritten signature in black ink, appearing to read "Dave Poling".
